These papers and the file relating to the Govt grant of Rs 75 per mensem sanctioned from the State Funds are put up From these papers it will be seen that out of the grant of Rs 75, Rs 50 were sanctioned for meeting the pay of the Head Master. The State grant of Rs 75 has been transferred to Sd 12 from 1-7-06.

The School receives in all a monthly grant of Rs 105 as shown below -

State Funds	——	Rs 75 + 50
Municipal Funds	——	" 30
Total		Rs 105 + 50 = 155

5 In addn to the above grants the Services of a teacher on Rs 15 per mensem were also lent to the School from 1-1-1903 (Vide G O No 11907-8/Ed 294 dt 16/2/1903) - It is not known whether the teacher still works in the School

Submitted to His Highness

In referring to me for consideration a memorial presented by Venkata Rao, the Head Master of the Deaf and Dumb School at Mysore, His Highness has been pleased to call for my views as regards the provision of a suitable school and Hostel, and the question of taking over to Government the maintenance of the staff and school equipment

Ex to Palace despatches

The extract from the Proceedings of the School Committee gives a full account of the present position of the school. It will be seen therefrom that out of the total monthly expenditure of Rs 242, a sum of Rs 147 is the cost of the establishment including the boarding establishment

The expenditure is met by the Government and Municipal grant of Rs 155 per mensem, the balance being met from private subscriptions and donations It will be seen that the Government grant fully covers the cost of the teaching

staff and the boarding establishment Besides this grant, the Government have given the school the free loan of the services of a teacher on a pay of Rs 25

The private donations and subscriptions go to meet the cost of feeding certain students and that of scholarships

The school is at present located in a Government building for which no rent is paid

It will thus be seen that at present Governmert has practically provided accommodation for the school and is bearing the cost of the staff and school equipment, while private chari is chiefly confined to feeding the boys and providing scholarships

In his memorial to His Highness the Head-master pra s that he may be taken into Government Educational service in class IV pay Rs $50-\frac{10}{2}-100$

The same request was made in August last, but on a consideration of the case, the First Councillor and I were not in favour of complying with it

If the pra er is granted in the case

of the head-master, it will have to be granted in the case of the other teachers of the school, and the result will be that the institution will become a Government school It is doubtful if after that private people will continue to take as much interest in it as at present

The entire cost of the school -including pensionary charges of the employees- and the cost of boarding and scholarships will devolve on Government

I have no doubt that the education of the blind and the deaf and the dumb -who are in most cases also poor and helpless- is a very proper function for the State to undertake, but when an institution has been started by private charity and kept up by private effort, I think it is sound policy to foster that private effort and not stifle it by rendering it unnecessary

I think that Government may give a certain amount of aid, but something must be left to private charity also I am of opinion that what Government is doing for the school at present does not err on the side of illiberality

In their proceedings the Committee suggest that Government should provide suitable buildings for the school and hostel This is a suggestion in a direction in which Government help can reasonably be given and I shall consider the provision of funds for the purpose in the next year's budget

Encl to Paper under Proposal

The Chief Engineer does not approve of the site suggested by the Committee, but I have no doubt that another eligible site can be easily found

The Committee also request that till a new school building is provided the existing building may be extended at a small cost, or that a suitable house might be rented for the school

I shall make the needful enquiries and adopt whichever of these suggestion is the most feasible

Order

I take a personal interest in this school, which is a unique institution in India. I therefore welcome the Dewan's promise to give his personal attention to the working of the institution. But I should like Government assistance carried a step further and the masters made Government servants. It takes some time for a master in a special Institution of this kind to become an efficient teacher. When he has become efficient we want to keep him, and I do not see how this is to be effected if he has nothing to look forward to and no prospects of a pension. I do not altogether share the fear that such a step will result in the drying up of the springs of charity. The efforts of the Committee are the main factor in securing subscribers and

the more efficient the school the greater the likelihood of assistance from the charitable If the future of the teachers is secured an important step in the direction of efficiency will in my opinion have been taken The Head Master is a real enthusiast with a gift for teaching these unfortunate boys and it would be a thousand pities to dishearten him at the present stage

It was with Your Highnesses gracious permission and approval that I was selected to undergo training in the Institutes for the Deaf mutes and the Blind at Calcutta and Bombay in December 1903 and accordingly sent early in 1904 and Your Highness was graciously pleased to bear the whole cost of my training After successfully undergoing the course of training I returned here and took charge of the Deaf Dumb and Blind School on the 1st November 1904 as its Head Master on a monthly salary of Rs 50/ which Your Highness was graciously pleased sanction The opinions of the Managing Committee of the school will show how I have been working this Institution in which Your Highness has been graciously pleased to evince so much interest the first of its kind

in the dominions of Your Highness and the third in the whole of the Indian Empire It is not unknown to Your Highness that the task of a Teacher of the afflicted deaf mutes and the blind is many times harder than that of an ordenary teacher

As I have a very strong desire to serve Your Highness and Your Highnesss Government and as I am a very poor man with a large family to maintain I most humbly pray that Your Highness may be graciously pleased to order firstly that my Services may be recognised as Government Service and considered as lent to this School as has been done in the case of Mr Sankara Naranappa working with me in the same School and secondly that I may be placed in class C IV of Officers in the graded Service Educational Department or given some substantive promotion in consideration of the immense difficulty and special nature of my work I humbly beg to bring to Your Highness's kind notice that I had applied to the Inspector General of Education in Mysore through the Honorary Secretary of the School and to attach herewith a copy of the reply recived along with a copy of the opinions of the Managing Committee &c

In conclusion I most humbly pray that my humble prayers may meet with Your gracious Highnesss benevolent and favourable Consideration

1 I consider Mr Venkata Rao request reasonable and one that we the Members of the Managing Committee can conscientiously recommend to the favourable consideration of the Government The applicant has the necessary Arts qualification for a graded employment in the Government Educational Service and his work in the Deaf Dumb and Blind School is certainly of an exacting and taxing nature Putting his training in this line on a par with that of a L T, in a Training School Venkata Rao might very well be considered as a BA L T and his case be submitted to the Government for favourable orders
